Aspiring Full-Stack Developer with a passion for developing innovative web applications using .NET Seeking opportunities to leverage my skills in a dynamic team environment to contribute to impactful projects and enhance user experiences. Strong problem-solving skills and commitment to staying updated with NET technologies

EDUCATION

JULY 2023

BACHELOR OF ENGINEERING, HORUS UNIVERSITY EGYPT HUE

Major: Mechatronics

GPA: Very Good "3.12"

- **Graduation Project: medial Robot**

Project Name "Horus Expert Medical Assistant."

HEMA is a robot the helps users measure vital signs and diagnose Symptoms.

- **Graduation project grade:** Excellent

TECHNICAL PROJECTS

- **PORTFOLIO WEBSITE**

Description: Developed a personal portfolio website to showcase projects and skills. The site features a professional design with sections for home, projects, about, and contact. Each project section includes detailed descriptions and visuals.

- **Technologies used:** HTML, CSS, JavaScript.

- **PET COMPANION WEBSITE PROJECT**

Description: Designed and developed a website to help users find the perfect pet companion. The site features a clean and visually appealing layout with sections for both dogs and cats, including detailed images and descriptions of various breeds. The responsive design ensures seamless adaptation to different screen sizes, enhancing the user experience.

- **Technologies used:** HTML, CSS, JavaScript.

- **USER INTERACTION AND LEARNING HUB**

Description: Created a website featuring a professional and clean design, with a dedicated section for user input and email contact under the "Let's talk" heading. This allows visitors to easily get in touch by filling out their contact information. Additionally, it includes a channel page for various courses, showcasing a collection of educational materials and tutorials.
